-----------------------	---	---------------

Learn the tactical side of the game. A great opportunity for the recreational golfer to watch an expert golfer and learn from their example. Learn the strategy behind playing the game well and see how to implement it. Learn the correct shots for the different and varied situations encountered on the course and learn how to play with 'what you have' on any given day.

CLUB FITTING

The Vector Pro™ Launch Monitor takes club fitting to the next level. This advanced technology allows the trained professional to precisely match the correct club head, loft and shaft type to the individual allowing for a 'tour professional' level of fitting. Discover how to maximize your clubs performance by blending all the components into a precisely tuned piece of equipment.

- Club Head Speed
- Ball Speed
- Vertical Launch Angle
- Back Spin
- Side Spin
- Angle of Attack
- Side Angle

This technology can also be used to analyze swing performance and gain insight into technical [swing] changes the golfer can make to increase accuracy, consistency and distance.

Digital Instruction XX

Think launch monitor for your putter. This tool allows our CPGA Professional staff to analyze your stroke like never before. The proper style and weighting of putter can be determined to fit your stroke, alignment and visual preference. The High Definition LED Screen attached to the putter head instantly displays performance data from each stroke

- Face Angle
- Path
- Shaft Angle
- Impact Position
- Tempo
- Consistency

This system records your stroke characteristics and tendencies and is an excellent instructional aid in addition to fitting tool allowing for recommendations to putting style and technique as well as putter type.

Club Fitting - \$25.00 + GST per 1/2 Hour*

*Minimum Fitting Session Length is 1 Hour and all fitting costs can be applied to club purchase if made at Redstone Resort
